

The 16<sup>th</sup> Workshop on the Cell Biology of Viral Infections will bring together four internationally renowned scientists (Professors Helenius, Kielian, Sodeik, and Pöhlmann) with unique experience in both cell biology and virology. All four have investigated the virus life cycle during their entire career, specifically from a cell biology perspective. This year, they will share their experiences and visions with us.

SAVE THE DATE

2017, November 8<sup>th</sup> to 10<sup>th</sup> - Schöntal (Germany)

16th Workshop  
“Cell Biology of Viral Infections”  
Of the Society for Virology (GfV)

The ins and outs of virus infection: From binding to exit

**by Prof. Helenius, Prof. Kielian, Prof. Sodeik, Prof. Pöhlmann**

Chairs: **Gisa Gerold**, PhD, Institute for Experimental Virology, Twincore, Hannover  
**Pierre-Yves Lozach**, PhD, CellNetworks, Center of Infectious Diseases, Heidelberg
